

## Overbrook Trail

Our true &ldquo;diamond in the rough&rdquo;, the Overbrook Trail is a wonderful asset to our neighborhood and quality of life.

The Trail is approximately  $\frac{3}{4}$  mile long and stretches between JFK and North Hills Blvds. It is paved and has three short side trails that provide easy access from anywhere in the neighborhood.

It is a great place to walk the dog, take the kids for a bike ride, go for a jog, or just get outside and enjoy the seasons.

The trail is in the middle of a large swath of woodland containing scenic Five Mile Creek. Walking the trail replaces the sounds of the surrounding city with that of the wind in treetops and the babbling water of the creek.

You can access the Trail from the CAC campus (formerly the YMCA) on JFK or in the 5300 block of North Hills, from Kings River street between houses #53 and #55, Cache River Court between houses # 1025 and #1030, and from Cedar Creek street between houses #2117 and #2201.
